AMERICAN SHIPS GROW IN NUMBER

Glories of Past When Flag of Nation Was in Every Sea Are Being Revived.

NEW YORK, July 25.—The vast expansion of the American merchant marine in the past two years is revealed by figures issued yesterday by the United States shipping board. Exclusive of more than 2,500,000 tons of shipping still in war service, the board now employs 729 ships of 4,284,971 tons in general commerce.

The glories of the past, when the Stars and Stripes snapped from masts in every port of the world, are being revived. The board has established and now has under operation 42 regular cargo liner services in trade routes which have been opened in the past six months, and there are 114 steamships of 1,551,000 deadweight tons employed in the trade routes. They have been given regular cargo liner service. The remainder of the commerce fleet is engaged in general cargo and tramp service. Additional trade routes are soon to be opened and more ships will be utilized as they are released from war service, and as new ships are delivered.

Every quarter of the globe is now reached by regular cargo liner services. The cargo liner service to the Argentine and Uruguay includes the ships of from 5,000 to 9,000 deadweight tons sailing weekly from New York to the Argentine. The route from 4,300 to 5,000 tons from Boston to the Argentine; two of 4,075 and 4,200 tons from Mobile, Ala., to the Argentine; four of 5,075 tons from New Orleans to the Argentine; four of from 7,500 to 9,000 tons from Wilmington, Del., to the Argentine; four of from 7,500 to 9,000 tons from Charleston, S. C., to the Argentine. All of these ships call at Montevideo, Buenos Aires, La Plata and Rosario. They carry every imaginable manufacture.

Fine Brazil Service.

In addition to this there is now a splendid Brazil service with big ships leaving New York on a 10-day schedule for mid-Brazil and two others leaving New York for North Brazil every 15 days. The Brazil service also includes ships from New Orleans to Rio and Santos, from Wilmington, Charleston, Savannah, Brunswick, Del. and Jacksonville.

The cargo liner service to the west coast of South America, ranging from Guayaquil to Valparaiso, comprises five large ships from New York on fortnightly sailings. The Valparaiso and a steamship from New Orleans on a bi-monthly sailing to the same port. The board advertised two ships from New York to Egypt on monthly sailings, five from New York to the Dutch West Indies on monthly sailings, and from New York to Bombay and other Indian ports on bi-monthly sailings, and from New York to Japan and other ports on monthly sailings. One ship sails for the new free port of Dunkirk every month, and there is a cargo liner service to Constantinople from New York with two ships sailing every six weeks.

Other Service Lines.

Other services listed by the board include New York to West Africa, three ships on monthly sailings; New York to South Africa, two ships on bi-monthly sailings; New York to Australia and New Zealand, three ships on monthly sailings; New York to China and Japan, three ships on a six weeks' schedule, and fifteen ships from San Francisco to China and Japan and sailing every 10 days. In addition there are new services from San Francisco to eastern ports and Europe; from New York to Genoa; from New York to Greece; from New York to London; six of the largest ships on fortnightly sailings; Philadelphia to London; Baltimore to London; Norfolk, Va., to London; New York to Liverpool and Boston; Philadelphia, Baltimore, Norfolk and Calcutta, Tenn. to Liverpool; New York to Glasgow; New York to Havre; New York to Bordeaux; Boston to Bordeaux; and Baltimore to Antwerp; New York and Baltimore to Antwerp; New York to Copenhagen and Gothenburg, and finally an extensive cargo liner service to West Indian ports.

KOLCHAK WISHES TO BUY JAPANESE MUNITIONS

TOKYO, July 25.—Gen. Romanovsky has been sent here by Admiral Kolchak, leader of the anti-Russian government at Omsk, to discuss the possibility of the Russian government for munitions and general supplies for the Russian army.

Although the Japanese government in the past has been actively interested in Col. Semenov, the Cossack leader at Omsk, it is a disposition here now to get into closer touch with the Kolchak government at Omsk on the ground that it is a serious movement for the unification of Russia and the reconstruction of that troubled country.

The most striking feat of the rebels was the capture of a train from Mexico City to Puebla at a point only a few miles from the latter city by the forces of the former federal general, Chirio Arenas, who revolted about a year ago. One hundred of the several hundred passengers were seized as hostages, among them an American, Charles Chapman. They were driven for hours on foot over rocky trails to the headquarters of the rebel chieftain. Later they were released without being held for ransom and made their way safely to Puebla. The bandits' loot is estimated at 100,000 pesos.

The following close on the heels of the capture of six well-known residents of Mexico City at a picnic resort known as the Doctores de la Loma, not more than a dozen miles from the capital. The captors, former followers of Zapata, sent the women of the party back to Mexico City for a ransom of 2,000 pesos and released their captives when the money was delivered.

More than 100 followers of Pedro Gaby are reported to have been killed when federal forces recaptured the town of Checoman, state of Vera Cruz. The Excelsior tells of the murder by bandits of the millionaire, Enrique Langenschein, son of the German consul at Cienfuegos. Langenschein met death at the hands of rebels fleeing from Michoacan into Jalisco, who caught him on his ranch near Lake Chapala.

LIVING COST IN CITIES OF SOUTH IS VARIABLE

WASHINGTON, July 25.—Cost of living in principal southern cities shows a wide divergence in the latest government statistics just published which show average retail prices of the principal articles of food prevailing on April 15, 1919. These food prices have doubled in some instances and almost doubled in practically all others during the period of the war and are higher now than they have been in many years, both in the country as a whole and in the south. The average of all articles is 55 per cent higher than on April 15, 1918.

Lard has risen higher proportionately than any other article, followed closely by flour, sliced bacon, potatoes, sliced ham and corn meal, all of which have more than doubled in price in the six years. Practically all other articles of food are 50 per cent and upwards to 100 per cent higher than they were six years ago. They range in this order: Lamb, eggs, sugar, beans, pork chops, plate beef, round steak, chuck roast, butter, bread, rib roast, sirloin steak, and fresh milk.

Comparison of the April 15 prices for nine southern cities and Washington, as announced by the bureau of labor statistics of the department of labor shows a wide range of prices compared with the average for the country as a whole. Forty-one articles are enumerated. The statistics show Washington, D. C., prices are higher than any of the nine southern cities.

Following are the average retail prices on the more important articles of food for the United States as a whole and for nine southern cities on April 15, 1919:

WITHDRAWAL OF TROOPS LEADS TO TRAIN WRECK

LAREDO, Tex., July 25.—(Correspondence of the Associated Press.)—Withdrawal of troops from bandit-infested regions in central and southern Mexico to campaign against Villa in the north has led to a new wave of train wrecking and railway destruction in the region, according to stories printed by Mexico City papers, received in this city.

The most striking feat of the rebels was the capture of a train from Mexico City to Puebla at a point only a few miles from the latter city by the forces of the former federal general, Chirio Arenas, who revolted about a year ago. One hundred of the several hundred passengers were seized as hostages, among them an American, Charles Chapman.
